

K Parker Joinery

Let's take a look at

Rehau AfriSlim

The Affordable solution

Rehau AfriSlim is Aesthetically pleasing, Durable and Thermally Efficient while remaining affordable. Especially designed for the South African market it is truly an option worth exploring

A close-up photograph of a white window frame. The frame is set into a light-colored wall. A grey handle is visible on the right side of the frame. To the left, a grey downspout is attached to the wall. The window is slightly open, showing a dark interior. The background is a bright, overcast sky.

Variable Reinforcement

With Rehau AfriSlim you have the choice between Composite Reinforcement with Single Glazing windows up to 800x800mm and Steel reinforcement for larger sizes or Double Glazing

Coupling Options

Afrislim Windows can be joined with other Rehau system to create wider windows spans. The Afrislim 36 system can also be coupled with the Eco tech 60 system and be incorporated with Ecotec Doors and Sliding Doors.

Noise Reduction

Thanks to the double sealing gaskets and when incorporated with noise reducing glazing option more noise can be kept outside providing a quiet living space inside

Glazing Options

Rehau AfriSlim is compatible with both single and double glazing options ranging from 4mm – 18mm in thickness.

UV Stable

Rehau AfriSlim is manufactured using the Specially Designed RAU-PVC1476 High Weather Formulation to provide high resistance against UV Radiation.

Maintenance

Keeping window frames looking great is as simple as periodically wiping it with a little bit of warm soapy water and a soft cloth, no sanding no varnish and no painting required.
